

**WHY DOGS AFOOT IS CLEARLY THE BEST
CHOICE FOR YOU, YOUR PETS, AND
YOUR HOME**

*We truly love animals, yours and ours. That's the best possible assurance that your pets will be safe, secure and happy in our care.

*Our services are limited to residents of the Shore, the Villas and their pets. We will meet personally with each of you and your pets in your home. Unlike other companies, we will not delegate tasks to people you do not know. Only the 2 of us will care for your pets and your home, and we will do so strictly in accordance with your wishes.

*As residents of the Shore, we are known and trusted by management, staff, and the many neighbors with whom we are already acquainted. We hope anyone considering our services will visit us and our dogs Hank and Gus in our home on the 13th floor of the Shore. We are insured and bonded and can provide both character and competence references.

*Because we live at the Shore, it's easy for us to check on your pets as frequently as necessary. Our proximity also minimizes the possibility of delays based on traffic or weather and makes it more likely that we will be able to respond affirmatively to your emergency or other last minute requests.

*We are prompt, reliable and hard working. We will care for your pets on time and as requested.

*DOGS AFOOT has down home prices. We checked others' fees and set our daily and monthly rates 10 to 20% lower.

*Custom and periodic packages are also available.

We created **DOGS AFOOT** exclusively to meet the pet care and house sitting needs of residents of the Shore and the Villas on Town Lake. We provide services only to residents of those buildings and their pets. This ensures that we can personally tend to your pet and house sitting needs instead of delegating tasks to persons you do not know. Long term animal lovers, owners and sitters, we are also insured and bonded. Perhaps best of all, you know where we live!

HOW WE CAN HELP

* If you work or play long hours, we can cheer and relieve your pet/s with walks, affection and stimulating interaction.

* If you have a large or active dog, we can provide extra daytime exercise while you work, play, or vacation.

* If you dread having to take your dog out the minute you get home, we offer walks in mid to late afternoon.

* If your pet requires medicine or has other daytime medical needs, we will tend to all of that.

* If you have a new puppy, we will take the daytime potty training shift. Pricing and details will depend on your puppy.

* If you are going on vacation or simply out of town for a day or 2, we will care for your pets in your home, pick up packages and mail, look after your plants, and complete other minor household chores on request. Your pets will feel calm and happy in familiar surroundings, and having your home tended and occupied will give you an additional measure of security as well. Pet photos and email reports are a delightful part of the package.

* We are available to drive your pets to and from vet, grooming and other appointments.

* We also provide house sitting services for households without pets.

* Please feel free to contact us with emergency and other last minute needs. We will be glad to help if we possibly can.
